About Novavax

Novavax, Inc. (Nasdaq: NVAX) is a biotechnology company that promotes improved health globally through the discovery, development and commercialization of innovative vaccines to prevent serious infectious diseases. The company's proprietary recombinant technology platform harnesses the power and speed of genetic engineering to efficiently produce highly immunogenic nanoparticles designed to address urgent global health needs. NVX-CoV2373, the company's COVID-19 vaccine, received Emergency Use Authorization in Indonesia and the Philippines and has been submitted for regulatory authorization in multiple markets globally. NanoFluTM, the company's quadrivalent influenza nanoparticle vaccine, met all primary objectives in its pivotal Phase 3 clinical trial in older adults. Novavax is currently evaluating a COVID-NanoFluTM combination vaccine in a Phase 1/2 clinical trial, which combines the company's NVX-CoV2373 and NanoFluTM vaccine candidates. These vaccine candidates incorporate Novavax' proprietary saponin-based Matrix-MTM adjuvant to enhance the immune response and stimulate high levels of neutralizing antibodies.
