

Novavax to Participate in Fireside Chat at the SVB Securities Virtual Vaccine Forum

August 11, 2022

GAITHERSBURG, Md., Aug. 11, 2022 /PRNewswire/ -- Novavax, Inc. (Nasdaq: NVAX), a biotechnology company dedicated to developing and commercializing next-generation vaccines for serious infectious diseases, today announced that it will participate in a fireside chat during the SVB Securities Virtual Vaccine Forum. Novavax' recombinant nanoparticle protein-based COVID-19 vaccine candidate, NVX-CoV2373, will be a topic of discussion.

Fireside chat details:

Date:	Thursday, August 18, 2022
Time:	11:00 – 11:50 a.m. Eastern Daylight Time (EDT)
Moderator:	David Risinger, CFA
Novavax participants:	Filip Dubovsky, M.D., Executive Vice President, Chief Medical Officer and John J. Trizzino, Executive Vice President, Chief Commercial Officer and Chief Business Officer

Please contact your SVB Securities representative to view the session.

Novavax, Inc. (Nasdaq: NVAX) is a biotechnology company that promotes improved health globally through the discovery, development, and commercialization of innovative vaccines to prevent serious infectious diseases. The company's proprietary recombinant technology platform harnesses the power and speed of genetic engineering to efficiently produce highly immunogenic nanoparticles designed to address urgent global health needs. The Novavax COVID-19 vaccine, has received authorization from multiple regulatory authorities globally, including the U.S., European Commission and the WHO. The vaccine is currently under review by multiple regulatory agencies worldwide, including for additional indications and populations such as adolescents and as a booster. In addition to its COVID-19 vaccine, Novavax is also currently evaluating a COVID-seasonal influenza combination vaccine candidate in a Phase 1/2 clinical trial, which combines NVX-CoV2373 and NanoFlu*, its quadrivalent influenza investigational vaccine candidate, and is also evaluating an Omicron strain-based vaccine (NVX-CoV2515) as well as a bivalent format Omicron-based / original strain-based vaccine. These vaccine candidates incorporate Novavax' proprietary saponin-based Matrix-M adjuvant to enhance the immune response and stimulate high levels of neutralizing antibodies.
